

2 & 3 Level Automated Valve

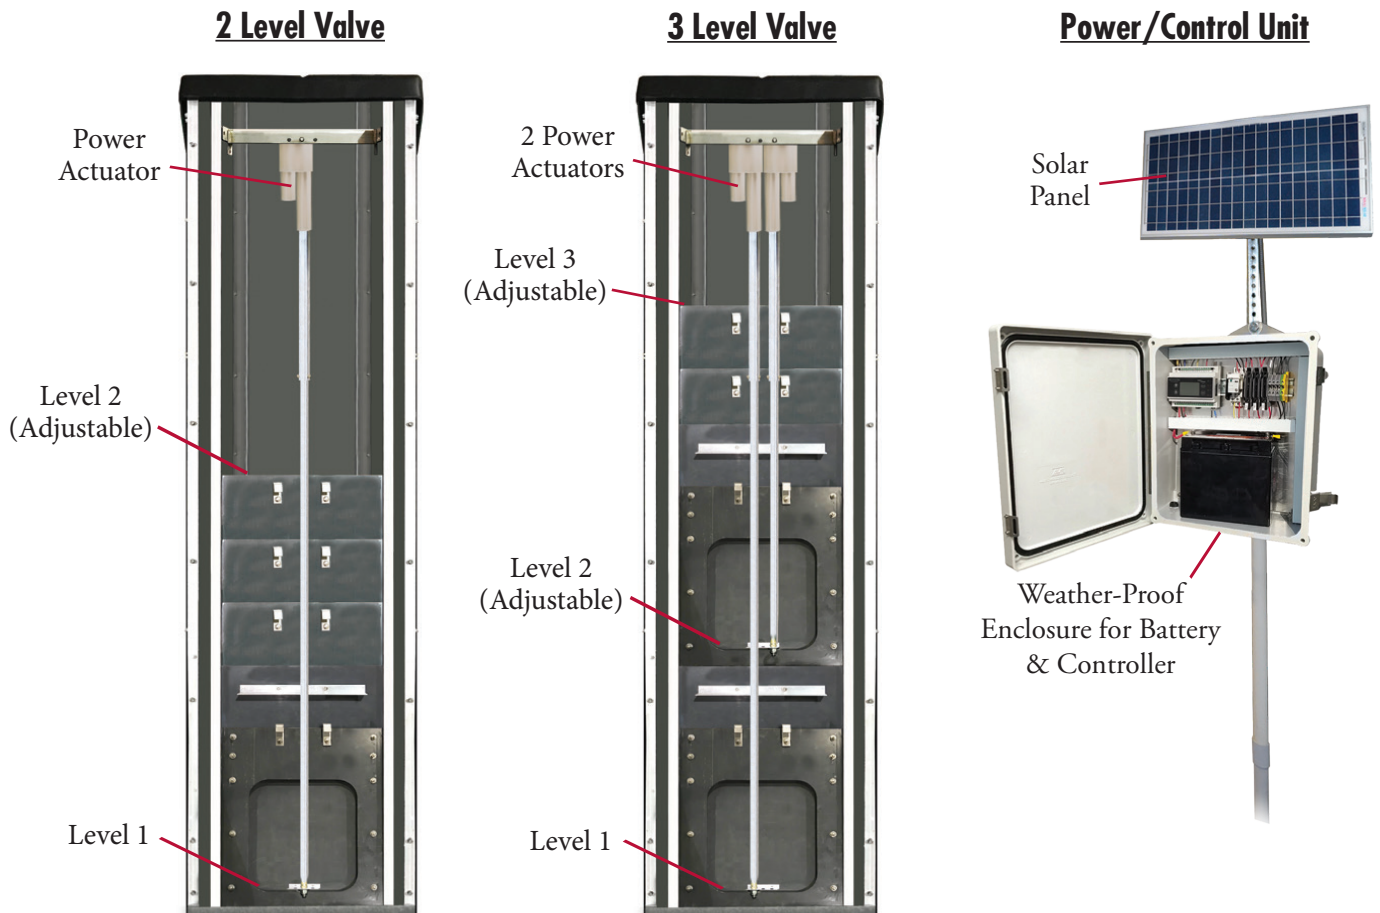

Add 2 & 3 level, automated, local-control capabilities to Agri Drain's Inline Water Level Control Structures[™] in pipe sizes up to 18"-diameter.

Features:

- Choice of one or two PVC Slide Gate Valve(s).
- Choice of one or two power actuator(s) to open and close the slide gate valve(s) in either a 2 level or 3 level structure.
- Solar panel and battery to provide power to the system.
- Locally-programmable controller.
- Weather-proof enclosure.

Specs:

- Same specs as the Inline structure.
- Available for pipe sizes up to 18"-diameter.
- Components slide into tracks of an Inline structure.

Also available in manual models.
