

# Agri Drain Smart Drainage System<sup>®</sup>

Add manual, automated & remote control capabilities to Agri Drain's Water Level Control Structures in pipe sizes up to 12"-diameter.

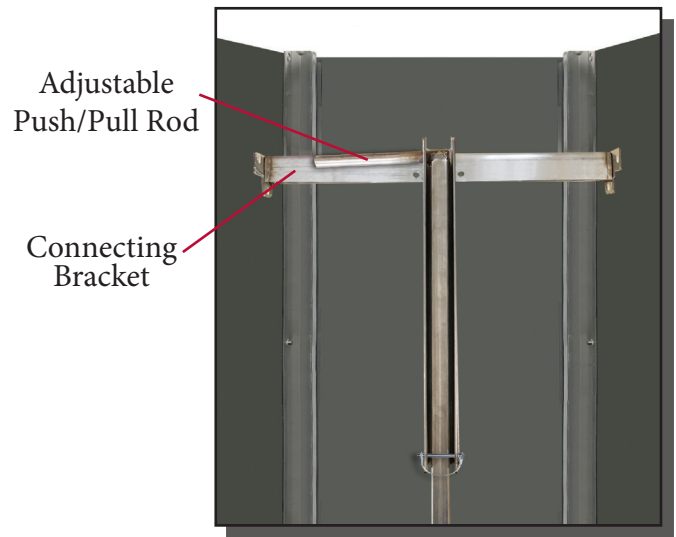

## 2 & 3 Level Manual Valves

Installing 1 or 2 slide gate valves with a manual actuator into Agri Drain's Inline Water Level Control Structure™ allows you to manually open and close valves to drain or retain water in a pond, wetland, surface or subsurface drainage system.

### 2 Level Valve

### 3 Level Valve

### Manual Control Unit

When valve is open, the adjustable push/pull rod locks in open or closed position.

### **2 Level Valve**

**6"/8" 2 Level Manual Valve** . . . . . \$342.50\*

**10"/12" 2 Level Manual Valve** . . . . . \$392.50\*

Package includes: slide gate valve, 1 manual actuator, & mounting hardware.

### **3 Level Valve**

**6"/8" 3 Level Manual Valve** . . . . . \$665.00\*

**10"/12" 3 Level Manual Valve** . . . . . \$765.00\*

Package includes: 2 slide gate valves, 2 manual actuators, & mounting hardware.

**\*Price does not include water level control structure or freight.**  
Structures are intended for gravity flow: Low pressure and some seepage will occur.
